

Banson Vuong

banson.vuong@uwaterloo.ca | Waterloo, ON | github.com/BansonVuong

TECHNICAL SKILLS

Languages: C++, Java, Python, TypeScript/JavaScript, HTML/CSS, Go, Kotlin

Frameworks/Tools: React, Next.js, Node.js, tRPC, Drizzle ORM, Vitest, Git, Stripe, Docker

WORK EXPERIENCE

Eventist

Apr. 2025 – Dec. 2025

Full Stack Developer

Part-Time, Remote

- Merged 35 PRs into a production event platform across payments, scheduling, testing, and internationalization
- Built a real-time judging platform with account-linked judge assignment, live scheduling, and support for both individual and team competitions
- Integrated Stripe webhooks into backend systems, handling customer purchases and cancellations of recurring subscriptions
- Wrote Vitest suites covering checkout flows, Stripe cancellation handling, and studio scheduling conflicts, identifying and fixing a data inheritance issue in activity creation
 - **Stack:** TypeScript (React, tRPC, Drizzle ORM, Vitest), SQL, Docker Containers

Elections Ontario

Feb. 2025

Information Assistant

East Gwillimbury, ON

- Assisted and directed 1,800+ voters through polling procedures, eligibility and ID requirements, and managed queues during a 14-hour election day shift

PROJECTS

cptui | Go | [GitHub](#)

- Built a terminal UI app to automatically compile and test C++ code against test cases and display competitive programming code and dev logs

App Blocker | Kotlin | [GitHub](#)

- Built an Android app using AccessibilityService and UsageStats to track screen time across apps and enforce combined quotas

EDUCATION AND LEADERSHIP

University of Waterloo

2026 – 2031

Bachelor of Computer Science

Wilfrid Laurier University

2026 – 2031

Bachelor of Business Administration (BBA)

Coding Club

2023 – Present

President

Newmarket High School

- Led 6 executives and 20 members in CCC prep, web development, game development workshops, and PC building workshops

SHAD

Summer 2025

Fellow

Toronto Metropolitan University

- Created **WayMatch**, a ridesharing app matching riders with commuters going in the same direction in 2 weeks

VEX Robotics

2025-2026

Team Lead

Newmarket High School

- Used C++ to program both autonomous and driver mode, as well as Fusion 360 to CAD and design our robot for competitions

Canadian Computing Competition

2022-2026

- Achieved Certificate of Distinction in CCC Senior from 2023 through 2026 and achieved Honour Roll in 2026
